

The Family Co.

The Family Co. (formerly Sutherland Shire Family Services) is a grassroots, not for profit community organisation that believes that all children and families deserve a safe home, strong connections and opportunities to thrive.

In 2021 Big Sister Foundation continues supporting Family Co. with new funding provided for additional domestic violence case work. This donation builds on past donations for the Links to Safety program (providing access to timely and critical safety measures for women escaping domestic violence) and the Love Bites Respectful Relationships Program (for high-school student education on avoiding domestic violence, sexual assault and unhealthy relationships.)
